Experience and professional skills summary

Ten years of UX design and usability tests experience with some of the best UX designers in Russia. While working as an UX designer I've designed global products aimed for millions of users. I'm eager to improve my working skills - I read professional literature about interaction design, UI prototyping, typography and graphic design, take part in usability conferences. Due to technical education I have a solid knowledge of software developing for all modern popular platforms and web.

Professional software:

- Sketch
- Principle (UI animations)
- InVision
- Adobe InDesign
- Adobe Photoshop
- Adobe Illustrator
- Adobe Experience Design
- Axure RP

Other skills:

- Usability testing methodologies and practices
- Personas and customer journey maps

- Windows, OS X, iOS and Android guidelines
- Knowledge of Windows, iOS and Android SDKs capabilities and limitations
- Knowledge of current web technologies and trends
- HTML and CSS (without JS)
- Waterfall and agile development

Languages

- Russian (native)
- English (reading, writing, speaking)
- French (reading with dictionary)
